What are Grimalkain quests and what rewards do they give? This Monster Hunter World Grimalkaine Guide will tell you how to unlock Grimalkaine quests in each area, what they have to do with mysterious Doodles and what rewards you get for each quest. Grimalkaine are Palico-like races that inhabit different areas of Monster Hunter World. Although usually hidden, their location can be detected by tracking. As you explore the maps you will come across the strange Doodles, these are Grimalkaine markings. Once you have discovered enough Doodles you can open the map in the expedition. Look in the bottom left and you will see the ability to track Doodles, the exact name depends on the area. Below is the location of each of The Grimalkain's quests in each of the areas they are available. Coral Highlands Grimalkaine - Troupers head to this place to find palico riding some Shamos. You have to take them down, so don't worry if they attack you. Here you would have encountered one of the flying wyverns when you first arrived here. Gajalaka Doodles - Coral Highlands There are two more Gajalaka Doodles to be found in the Coral Highlands. If you are trying to find them, remember that you can open the map and look around for the Gajalaka creatures, as they are usually located next to their markings. Both Doodles in the Coral Highlands should appear next to each other. To find them both, head to Area 12, which sits on the middle layer of the Coral Highlands. Gajalaka Doodles - Rotten Vale You can finish searching for Gajalaka Doodles in Rotten Valley. Although you should only have 6 Gajalaka Doodles at the moment, you can find the last 4 in Rotten Vale. The first two markings can be found in zone 3, next to the exit on a long ramp to area 4. The final Doodles of Gadjalak can be found in the cave system in Area 15.
